

D-Sub Connector Module

MOD Series

**RoHS
Compliant**

Description

D-Subminiature connector modules are used in industrial control as a connecting interface between electronic and conventional components. They serve as the signal conversion from D-Sub to screw connection. The D-Sub connector modules provide user a convenient, quickly installed, and easily replaced input/output platform for all common PLC'S.

The standard modules offer 9, 15, 25, 37 and 50 connections either in male or female connector type to fit different application. Customer specified design will be accepted for particular requirement. The modules can be mounted on standard mounting rails TS15, TS32 and TS35.
