

Crimp Tool

1370G1 & 1387G3

Anderson Power Products® offers two, heavy duty hydraulic crimping tools; the battery operated 1370G1 and the hand operated 1387G3. Both tools offer rugged steel construction and a powerful 6 ton hydraulic pump providing plenty of crimping power. Hexagonal crimping dies which mount in both tools can be removed or installed in a matter of seconds. Users of the 1370G1 and 1387G3 crimp tool receive the highest levels of crimping performance and convenience.

1370G1 Features

- **Powerful operation**

The 1370G1 employs a 14.4 volt, 3 amp-hr Ni Mh battery for plenty of power and long running times.

- **Customer comfort**

The integral hand guard is ergonomically designed with a sculptured body for operator comfort.

- **Complete range of crimping dies**

Die sets for the 1370G1 range from 6 AWG through 4/0 and 10mm² through 95mm².

- **Accessories**

The 1370G1 tool includes a spare battery, charging station and a rugged molded carrying case with customized compartments for the tool, battery, charger and a wide assortment of crimping dies.

1387G3 Features

- **Compact hand tool**

1387G3 is one of the most compact and robust 6 ton crimping tools available.

- **Ease of operation**

Having the benefit of spring loaded handles the 1387G3 dies can be advanced using one hand, allowing the other hand free to position the contact.

- **Complete range of crimping dies**

Die sets for the 1387G3 range from 6 AWG through 4/0 and 10mm² through 95mm².

- **Accessories**

The 1387G3 tool includes a rugged molded carrying case with customized compartments for the tool and a wide assortment of crimping dies.
