# Breadboard–Friendly 3.5mm Stereo Headphone Jack

Product ID: 1699

Description

Pipe audio in or out of your project with this very handy breadboard-friendly audio jack. It's a stereo jack with disconnect-switches on Left and Right channels as well as a center ground pin. You can use any 3.5mm stereo cable with this jack. The pins are on 0.1" spacing so it plugs very solidly into a breadboard, perma-proto or perf-board.

Each order comes with one headphone jack, breadboard and audio cable not included!
